DRIVING INSTRUCTIONS

Take I-15 to Bernardo Center Drive (NOT Rancho Bernardo Road).

At the bottom of the ramp, turn to the North of the freeway (right if you are coming from the South, left if coming from the North). You will see a Instant Oil Change and a Burger King on your left. Turn left into what looks like the Burger King driveway. Our buildings are on the right. It is easiest to pull straight ahead and then to the right in back of the building, find a parking spot and walk through the walkway into the main garden. Our office is right next to the big fountain. If you get lost, call us on your cell phone and we'll talk you in. (See map on the next page.)

FLYING INSTRUCTIONS

Airline: Fly into San Diego Lindbergh International Airport (it's where his plane was built and tested) and call us for directions.

Private: You have three choices:

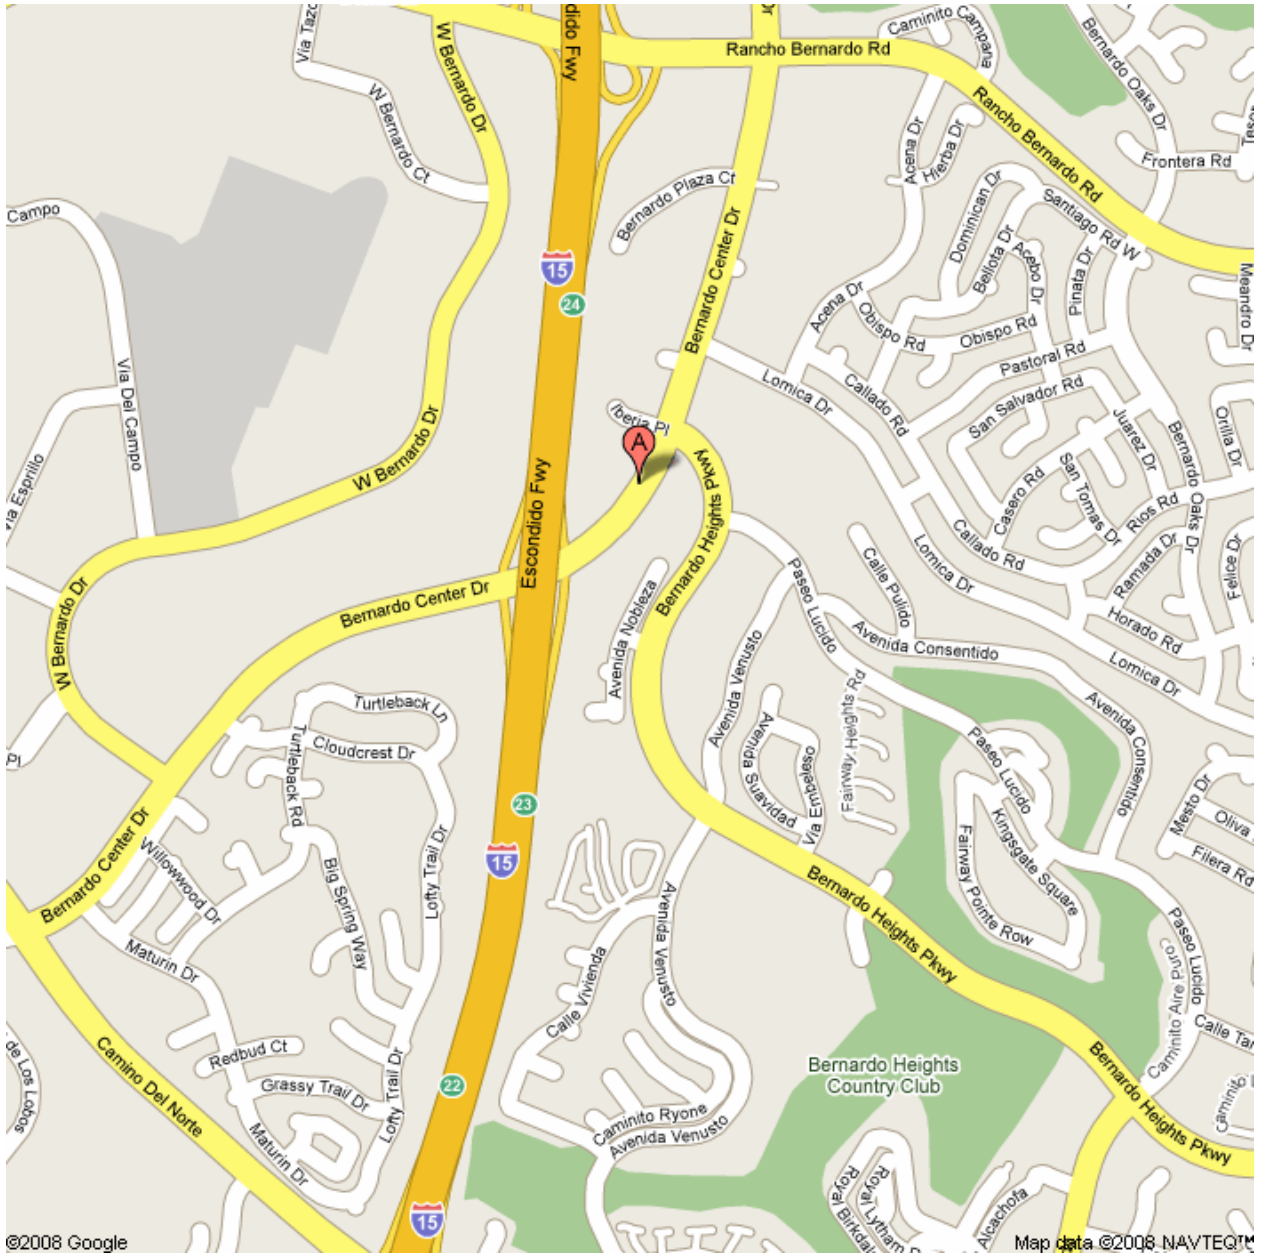

1. Use Montgomery Field (MYF), which is located between I-15 and I-163 about 8 miles South of the office. There is no fuel service after dark and no good FBO facility.
2. Use McClellan Palomar (CRQ), which is located right off I-5 near the coast and about a half hour away by car. Taxi to Jet Center and use their tie downs.
3. Use Ramona (RNM), which has the best runway and weather conditions and is where we keep our plane(s). It is located in a valley above Escondido and is also about a half hour away. Taxi back to the gas pumps at Pacific Executive Aviation on the northeast end of the field and tell them we sent you

BOAT

Dock at Oceanside harbor and call me. I'll buy lunch.
